Call for abstracts

Scientific Day and Annual Meetings REPAR-INTER 2018 in collaboration with CIRRIIS and CRIR

Research for an inclusive society

www.repar.ca

Friday, May 11, 2018. Hôtel Château Laurier - Québec

You are invited to submit your abstracts for the Scientific Day.
To do so, please follow the instructions attached to this document.

Student and collaborator competition

Participate in the student and collaborator competition by submitting your abstract for a poster presentation! Prizes will be awarded for the best presentations.

Young researcher competition

Participate in the young researcher competition by submitting your abstract for a podium presentation! A prize will be awarded for the best presentation.

Technology demonstrations

Are you a researcher who wishes to present your new technology to the research community? Submit your request for a technology demonstration!

Deadline for submission: Monday, February 12, 2018

CALL FOR ABSTRACTS AND TECHNOLOGY DEMONSTRATIONS

The members of the *Réseau provincial de recherche en adaptation-réadaptation* (REPAR) and the *regroupement stratégique sur l'ingénierie de technologies interactives en réadaptation* (INTER), in collaboration with the *Centre interdisciplinaire de recherche en réadaptation et intégration sociale* (CIRRIIS) and the *Centre de recherche interdisciplinaire en réadaptation du Montréal métropolitain* (CRIR) are coming together for the Scientific Day and Annual Meetings 2018 with the general theme:

“Research for an inclusive society”

You are invited to submit an abstract for an oral presentation (young researcher competition) or a poster presentation (students, postdoctoral fellows and collaborators). The selection committee will evaluate all abstracts and notification of acceptance or rejection will be sent to each first author by email a few weeks after the submission deadline. You have until **Monday, February 12, 2018** to complete the abstract submission form on pages 4 and 5 and send it to the following address: repar.irglm@ssss.gouv.qc.ca. Accepted abstract will be published as submitted and you may submit only one abstract as first author.

Some of the abstracts accepted for a poster presentation will also be selected for participation in the competitions, with a prize awarded for the best in each category (5): collaborators, master's students, doctoral students, postdoctoral fellows, and professional master's students. The rules for poster presentations are based on those of ACFAS: the abstract must state the rationale and objectives, describe the methodology and present results that contribute to the advancement of knowledge. Abstracts may be submitted in English or French. To be eligible for the competitions, the student or fellow must be the presenter of the poster and the first author of the abstract as well as a member of one of the following organizations: REPAR, INTER, CIRRIIS, or CRIR. Abstracts that report a protocol (without results or with very preliminary results) or a narrative literature review may also be accepted for a poster presentation but will not be eligible for the competition. Each abstract eligible for a competition will be evaluated by two researchers to determine if it is selected for the poster competition.

A prize will also be awarded as part of the young researcher competition. You are eligible for this competition if you have been a researcher for less than 3 years and have not been previously awarded a prize from the competition. Previous prize recipients, however, may submit an abstract for a podium presentation.

The request form for a technology demonstration is found on page 6. Completed forms must be sent to rs.inter@usherbrooke.ca, by **Monday, February 12, 2018**. Technology demonstrations will be selected based on stated interests and accommodation capacity. All principal applicants will be notified by email of their acceptance or rejection shortly after the submission deadline.

HOW TO PRESENT YOUR ABSTRACT

Please complete the abstract submission form on pages 4 and 5. The abstract on page 5 must be written using the following criteria.

- Abstract title

The title of the abstract should be brief, (Font: Times New Roman 11) but sufficient to describe the nature of the research (maximum: 170 characters, including spaces).

- Abstract

The text of the abstract should not exceed **2000 characters, including spaces**. Font: Times New Roman 11. Abstracts not respecting these criteria will be rejected.

- Funding

- Authors

The surname of each author should be in capital letters followed by given name(s), preceded by a number that is used to refer to the author's affiliation(s).

Example: 1.SURNAME, Given name; 2.SURNAME, Given name

- Affiliation(s)

1. Institution

2. Research center, department, etc.

You must use the International System of Units (metric). For abstracts in French, capital letters must be accented where appropriate. The congress proceedings will be available on the REPAR website. The required dimensions for poster presentations will be announced at a later date.

All submission criteria must be met for an abstract to be considered by the selection committee.

ABSTRACT SUBMISSION FORM (part I)

SURNAME, Given name(s) of the presenter:

Work address:

City:

Province:

Postal Code:

Telephone:

Email:

Status:

Study program (student status only)

Organization(s) of which you are member:

REPAR

CRIR

CIRRIS

INTER

Aucune

If you are member of REPAR, please select your strategic group:

RS1

RS2

RS3

RS4

RS5

RS6

RS7

RS8

Please select your presentation type:

- Student and collaborator competition (poster)
- Young researcher competition (podium)

Please select your communication theme:

1. Habilitation-Rehabilitation

- Mobility / Postural control
- Sensibility
- Vision
- Communication
- Audition
- Aging
- Healthy lifestyle (physical activity, nutrition)
- Psychosocial considerations
- Cognition

5. Rehabilitation Technologies

- Telerehabilitation
- Gerontechnology
- Robotics
- Virtual reality
- Cortical stimulation and neuroimaging
- Living lab
- Assisted mobility

2. Inclusive Society and Social Participation

- Universal accessibility
- Personalized accessibility
- Ville amie*
- Leisure, social relationships, meaningful activities
- Public transportation and paratransit
- Emerging practices in the community (homelessness, isolated areas, ...)

6. Occupational Rehabilitation

- Prolonged disability risk
- Assessments/interventions in clinical settings
- Workplace assessments and interventions
- Vulnerable workers

3. Pediatric Rehabilitation

7. Knowledge Exchange

4. Rehabilitation Services

- Service quality
- Service accessibility or availability
- Satisfaction

ABSTRACT SUBMISSION FORM (part 2)

SURNAME, Given name of the presenter:

Title (max 170 characters including spaces):

Abstract (max 2000 characters including spaces). Please include the following sections:
Rational, Objective(s), Methodology, Results, Conclusion.

Funding

Authors

Affiliation(s)

TECHNOLOGY DEMONSTRATIONS: SUBMISSION FORM

SURNAME, Given name of the person in charge: Status:

Telephone: Email:

This demonstration is associated with a poster presentation: Yes No

Organization(s) of which you are member:

REPAR CRIR CIRRIS INTER

SURNAME, Given name of presenter #1:

Status:

Email:

SURNAME, Given name of presenter #2:

Status:

Email:

Title (max 180 characters including spaces)

Description of the technology demonstration (max 1000 characters including spaces)

Requirements for the layout of your kiosk

Kiosk dimensions: m × m

Equipment needs (type and number). These will be available upon your arrival.

Tables Tablecloths Chairs Easels electrical outlets

Other:

Minimum bandwidth (i.e. Upload and download in Mbit/s)

Display type Banner dimensions: cm × cm

Minimum clearance required for traffic around the kiosk: m

Physical constraints to be taken into account (e.g. preferred floor covering, luminosity level, etc.)

Installation and storage of your technological equipment

Required time for the installation: hours

Required level of security: Choisissez un élément.
