

# 3<sup>E</sup> CONGRÈS QUÉBÉCOIS DE RECHERCHE EN ADAPTATION-RÉADAPTATION

## 3<sup>RD</sup> QUEBEC CONGRESS IN ADAPTATION-REHABILITATION RESEARCH

*Unir nos forces pour la réadaptation à toutes les étapes de la vie*  
*Uniting our Strength for Rehabilitation in all stages of life*

### CALL FOR ABSTRACTS

Deadline - February 11th 2019

- »»» Student and collaborator competition (poster)
- »»» New researcher competition (podium)
- »»» Podium presentation - Researchers
- »»» Technology demonstration

*Centre Mont-Royal*  
*16-17 mai 2019*  
*May 16-17, 2019*

**MONTREAL**

## CALL FOR ABSTRACTS AND TECHNOLOGY DEMONSTRATIONS

Members of the Quebec Rehabilitation Research Network (REPAR), the Center for Interdisciplinary Research in Rehabilitation in Greater Montreal (CRIR), the Center for Interdisciplinary Research in Rehabilitation and Social Integration (CIRRIS), the *Centre de Recherche de l'Institut universitaire de gériatrie de Montréal* (CRIUGM), the CSSS-IUGS Centre on Aging, the Quebec Network for Research on Aging (RQRV), the *Institut de recherche Robert-Sauvé en santé et en sécurité du travail* (IRSST), the CHU Sainte-Justine Research Centre, the Strategic Network for Engineering of Interactive Technologies for Rehabilitation (INTER) and the Canadian MSK Research Rehab Network are coming together for the third Quebec Congress in Adaptation-Rehabilitation Research 2019, with the general theme:

### “Uniting our Strength for Rehabilitation in all stages of life!”

You are invited to submit an abstract for a podium presentation (researchers) or a poster presentation (students, postdoctoral fellows and collaborators). This abstract will be published as submitted and you may submit only one abstract as first author. The selection committee will evaluate all abstracts and notification of acceptance or rejection will be sent to each first author by email a few weeks after the submission deadline. You have until **Monday, February 11, 2019** to complete the abstract submission form on pages 4 and 5 and send it to the following address: [repar.irglm@ssss.gouv.qc.ca](mailto:repar.irglm@ssss.gouv.qc.ca).

Some of the abstracts accepted for a poster presentation will also be selected for participation in the competitions, with a prize awarded for the best in each category (5): master's students, doctoral students, postdoctoral fellows, professional master's students and collaborators (clinicians, managers and all other organisation members who are not researchers, students or fellows). The rules for poster presentations are based on those of ACFAS: the abstract must state the rationale and objectives, describe the methodology and present results that contribute to the advancement of knowledge. Abstracts may be submitted in English or French. To be eligible for the competitions, the student, fellow or collaborator must be the presenter of the poster, the first author of the abstract, and a member of one of the following organizations: REPAR, CRIR, CIRRIS, INTER, RQRV, CRIUGM, CdRV CSSS-IUGS, CR CHU Sainte-Justine, IRSST\* or the MSK network. Abstracts that report a protocol (without results or with very preliminary results) or a narrative literature review may also be accepted for a poster presentation but will not be eligible for a competition. Each abstract eligible for a competition will be evaluated by two researchers to determine if it is selected for the poster competition.

A prize will also be awarded as part of the new researcher competition. You are eligible for this competition if you have been a researcher for less than 3 years and have not been previously awarded a prize from the competition. Previous prize recipients, however, may submit an abstract for a podium presentation.

The request form for a technology demonstration is found on page 6. Completed forms must be sent to [catherine.page@usherbrooke.ca](mailto:catherine.page@usherbrooke.ca) by **Monday, February 11, 2019**. Technology demonstrations will be selected based on stated interests and accommodation capacity. All principal applicants will be notified by email of their acceptance or rejection shortly after the submission deadline.

\* For IRSST, the presenter or their supervisor must have received IRSST funds (grant, award) as IRSST membership does not exist.

## HOW TO PRESENT YOUR ABSTRACT

**Please complete the abstract submission form on pages 4 and 5. The abstract on page 5 must be written using the following criteria.**

- Abstract title

The title of the abstract should be brief, (Font: Times New Roman 11) but sufficient to describe the nature of the research (maximum: 170 characters including spaces).

- Abstract

The text of the abstract should not exceed **2000 characters including spaces**. Font: Times New Roman 11. Abstracts not respecting these criteria will be rejected.

- Funding

- Authors

The surname of each author should be in capital letters followed by given name(s), followed by a superscript number that is used to refer to the author's affiliation(s).

Example: SURNAME, Given name<sup>1</sup>, SURNAME, Given name<sup>2</sup>

- Affiliation(s)

1. Institution

2. Research center, department, etc.

You must use the International System of Units (metric). For abstracts in French, capital letters must be accented where appropriate. The congress proceedings will be available on the REPAR website. The required dimensions for poster presentations will be announced at a later date.

**All submission criteria must be met for an abstract to be considered by the selection committee.**

# ABSTRACT SUBMISSION FORM (part 1)

SURNAME, Given name(s) of the presenter:

Work address:

City:  Province:  Postal Code:

Telephone:  Email:

Status:  Study program (student status only)

Organization(s) of which you are member:

- REPAR  CRIR  CIRRIS  Centre de recherche CHU Sainte-Justine  INTER   
RQRV  CRIUGM  IRSST\*  CdRV CSSS-IUGS  RCRM   
None

## Please select your presentation type:

- Student and collaborator competition (poster)  
 Young researcher competition (podium)  
 Podium presentation (researchers only)

## Please select your communication theme:

### 1. Habilitation-Rehabilitation

- Mobility  
 Sensibility  
 Vision  
 Communication  
 Cognition  
 Audition  
 Healthy lifestyle (physical activity, nutrition)  
 Aging  
 Psychosocial considerations  
 Postural control

### 5. Rehabilitation Technologies

- Telerehabilitation  
 Gerontechnology  
 Robotics/exoskeleton  
 Virtual reality  
 Cortical stimulation and neuroimaging  
 Living lab  
 Assisted mobility

### 2. Inclusive Society and Social Participation

- Universal accessibility  
 Personalized accessibility  
 *Friendly cities*  
 Leisure, social relationships, meaningful activities  
 Public transportation and paratransit  
 Emerging practices in the community (homelessness, isolated areas, ...)  
 Interventions in collaboration with educational settings

### 6. Occupational Rehabilitation

- Prolonged disability risks  
 Support to interventions in clinical settings  
 Support to procedures for return to work or to work retention  
 Vulnerable workers  
 Assessment tools for workers with risk of incapacities

### 3. Pediatric Rehabilitation

### 7. Knowledge Exchange

### 4. Rehabilitation Services

- Service quality  
 Service accessibility or availability  
 Satisfaction

\* To check this box you must have received IRSST funds (grant, award) as IRSST membership does not exist.

## ABSTRACT SUBMISSION FORM (part 2)

SURNAME, Given name of the presenter:

Title (max 170 characters including spaces):

Abstract (max 2000 characters including spaces). Please include the following sections:  
Rational, Objective(s), Methodology, Results, Conclusion.

Funding

Authors

Affiliation(s)

## TECHNOLOGY DEMONSTRATIONS: SUBMISSION FORM

SURNAME, Given name of the person in charge:  Status:

Telephone:  Email :

This demonstration is associated with a poster presentation: Yes  No

Organization(s) of which you are member:

REPAR  CRIR  CIRRS  Centre de recherche CHU Sainte-Justine  INTER   
RQRV  CRIUGM  IRSST\*  CdRV CSSS-IUGS  RCRM

SURNAME, Given name of presenter #1:

Status:  Email :

SURNAME, Given name of presenter #2:

Status:  Email :

**Title (max 180 characters including spaces)**

**Description of the technology demonstration (max 1000 characters including spaces)**

### Requirements for the layout of your kiosk

Kiosk dimensions:  m ×  m

Equipment needs (type and number). These will be available upon your arrival.

Tables  Tablecloths  Chairs  Easels  electrical outlets

Other:

Minimum bandwidth (i.e. Upload and download in Mbit/s)

Display type  Banner dimensions:  cm ×  cm

Minimum clearance required for traffic around the kiosk:  m

### Installation and storage of your technological equipment

Required time for the installation:  hours Required level of security: Choisissez un élément.

Please return the completed submission form to [catherine.page@usherbrooke.ca](mailto:catherine.page@usherbrooke.ca), by February 11, 2019

\* To check this box you must have received IRSST funds (grant, award) as IRSST membership does not exist.
