

Scientific Day REPAR-INTER 2020

*INNOVATING TOGETHER
to address intersectoral and
interdisciplinary rehabilitation issues*

www.repar.ca

Friday, May 22, 2020 – Hotel Delta, Sherbrooke

You are invited to submit your abstract for the Scientific Day.
To do so, please follow the instructions attached to this document.

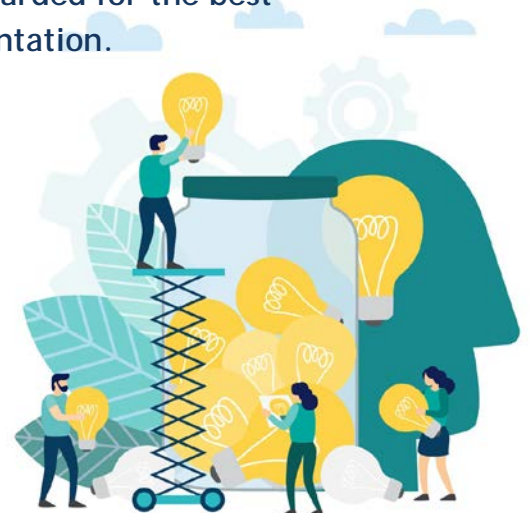

Student and collaborator
competition

Participate in the student and
collaborator competition by
submitting your abstract for a
poster presentation! Prizes will
be awarded for the best
presentations.

Young researcher competition

Participate in the young
researcher competition by
submitting your abstract for a
podium presentation! A prize will
be awarded for the best
presentation.

***Deadline for submission:
Monday, February 17, 2020***

CALL FOR ABSTRACTS

The members of the *Réseau provincial de recherche en adaptation-réadaptation* (REPAR) and the *regroupement stratégique sur l'ingénierie de technologies interactives en réadaptation* (INTER) are coming together for the Scientific Day 2020 with the general theme:

“Innovating together to address intersectoral and interdisciplinary rehabilitation issues”

You are invited to submit an abstract for an oral presentation (young researcher competition) or a poster presentation (students, postdoctoral fellows and collaborators). The selection committee will evaluate all abstracts and notification of acceptance or rejection will be sent to each first author by email a few weeks after the submission deadline. You have until **Monday, February 17, 2020**, to complete the abstract submission form and send it to the following address: repar.irglm@ssss.gouv.qc.ca. Accepted abstract will be published as submitted and you may submit only one abstract as first author.

Some of the abstracts accepted for a poster presentation will also be selected for participation in the competitions, with a prize awarded for the best in each category (5): collaborators, master's students, doctoral students, postdoctoral fellows, and professional master's students. The rules for poster presentations are based on those of ACFAS: the abstract must state the rationale and objectives, describe the methodology and present results that contribute to the advancement of knowledge. Abstracts may be submitted in English or French. **To be eligible for the competitions**, the student or fellow must be the presenter of the poster and the first author of the abstract as well as a member of one of the following organizations: REPAR or INTER. Abstracts that report a protocol (without results or with very preliminary results) or a narrative literature review may also be accepted for a poster presentation but will not be eligible for the competition. Each abstract eligible for a competition will be evaluated by two researchers to determine if it is selected for the poster competition.

A prize will also be awarded as part of the young researcher competition. You are eligible for this competition if you have been a researcher for less than 3 years and have not been previously awarded a prize from the competition. Previous prize recipients, however, may submit an abstract for a podium presentation.

HOW TO PRESENT YOUR ABSTRACT

Please complete the abstract submission form on pages 4 and 6. The abstract on page 6 must be written using the following criteria.

- Abstract title

The title of the abstract should be brief, (Font: Times New Roman 11) but sufficient to describe the nature of the research (maximum: 170 characters, including spaces).

- Abstract

The text of the abstract should not exceed **2000 characters, including spaces**. Font: Times New Roman 11. Abstracts not respecting these criteria will be rejected.

- Funding

- Authors

The surname of each author should be in capital letters followed by given name(s), preceded by a number that is used to refer to the author's affiliation(s).

Example: 1. SURNAME, Given name; 2. SURNAME, Given name

- Affiliation(s)

1. Institution

2. Research center, department, etc.

You must use the International System of Units (metric). For abstracts in French, capital letters must be accented where appropriate. The congress proceedings will be available on the REPAR website. The required dimensions for poster presentations will be announced at a later date.

All submission criteria must be met for an abstract to be considered by the selection committee.

ABSTRACT SUBMISSION FORM (part I)

SURNAME, Given name(s) of the presenter:

Work address:

City:

Province:

Postal Code:

Phone:

Email:

Status:

Study program :

Organization(s) of which you are member:

 REPAR INTER None

If you are member of REPAR, please select your strategic group:

RS1

RS2

RS3

RS4

RS5

RS6

RS7

Please select your presentation type:

Student and collaborator competition (poster)

Young researcher competition (podium)

Please select your communication theme:

1. Habilitation-Rehabilitation

- Mobility / Postural control
- Sensibility
- Vision
- Communication
- Audition
- Aging
- Healthy lifestyle (physical activity, nutrition)

- Psychosocial considerations
- Cognition

5. Rehabilitation Technologies

- Telerehabilitation
- Gerontechnology
- Robotics
- Virtual reality
- Cortical stimulation and neuroimaging
- Living lab
- Assisted mobility
- Actimetry (the measure of people's activity)

2. Inclusive Society and Social Participation

- Universal accessibility
- Personalized accessibility
- Ville amie*
- Leisure, social relationships, meaningful activities
- Public transportation and paratransit
- Emerging practices in the community (homelessness, isolated areas, ...)

6. Occupational Rehabilitation

- Prolonged disability risk
- Assessments/interventions in clinical settings
- Workplace assessments and interventions
- Vulnerable workers

3. Pediatric Rehabilitation

7. Knowledge Exchange

4. Rehabilitation Services

- Service quality
- Service accessibility or availability
- Satisfaction

Please select which of REPAR's strategic objectives align with your presentation:

- Direct access to rehabilitation services.
- Usability of technologies for rehabilitation services.
- Promoting the social participation of children.
- Access, maintenance and return to work.
- Innovative measures to evaluate functions and activities.
- Innovative interventions to improve and prevent disability.

ABSTRACT SUBMISSION FORM (part II)

SURNAME, Given name of the presenter:

Title (max 170 characters including spaces):

Abstract (max 2000 characters including spaces). Please include the following sections: Rational, Objective(s), Methodology, Results, Conclusion.
